CAREER SUMMARY

Inventive and creative professional with an accomplished background in technology, entertainment, and driving human connection. Multiple projects while working for Broadway, Hollywood and on personal creative tech initiatives have allowed me to combine these passions and reach a wide audience.

PROJECT EXPERIENCE

Multitude of projects utilizing JavaScript and React. Highlights include an extensive card matching game where the user must match two Pokémon cards called from an API and a Top 10 Movie List App that lets the user compile a list of their favorite movies using React and the MovieDB API.
